

[illegible][illegible]

This architectural elevation drawing shows the front facade of a long, single-story building. On the far left, a large, abstract sculpture made of overlapping, light-colored rectangular plates stands on a small, dark, irregular base. Two figures are seated on a bench in front of the sculpture. The building facade features a series of windows and doors: a tall, narrow vertical window; a wider double window; a central entrance with a small overhang; another double window; a window with horizontal blinds; and a final tall, narrow vertical window on the right. The building is rendered in a minimalist style with black outlines and light gray shading for the windows and sculpture. The ground is indicated by a simple horizontal line.

This architectural drawing shows the front elevation of a long, single-story building. The structure features a central entrance with a double door and a small overhang. To the left of the entrance are five rectangular windows of varying sizes, and to the right are three larger windows, including a set of double doors. The roof is flat with a chimney visible on the right side. The building is supported by a simple foundation, and the overall style is minimalist and functional.

[illegible]

ISOMETRIE

An isometric architectural rendering of a school complex. On the left is a long, single-story building with a flat roof, featuring a series of windows and a set of stairs leading to an entrance. Two stylized trees are planted in front of it. To the right is a larger, two-story building with a gabled roof, also featuring multiple windows. A staircase is visible on its side. In the foreground, there is a circular paved area with a metal structure, possibly a playground or a well. The entire scene is rendered in a simple, clean style with flat colors and black outlines.
