

The image is a detailed architectural site plan for a residential development. It features three main buildings: 101 (labeled 'Eigentümer: Bundesstraßenverwaltung'), 102, and 22. Building 101 is a long, narrow structure with multiple internal courtyards and parking spaces. Building 102 is a larger, more complex structure with a central courtyard. Building 22 is a long, narrow building with a series of parking spaces and a small structure labeled 'Ladesäule' (charging station). The plan includes extensive landscaping with various trees (Ahorn, Linde, Birke) and plantings (Pflanzinsel, Pflasterreihe). It also shows various engineering details such as drainage (Rinne, Rinne), elevations (e.g., ±0.00, -0.60, -0.45), and material specifications (Pflasterbelag d=8cm, d=12cm). The plan is bounded by a 'Grundstücksgrenze' (property boundary) and a 'Grundriss' (ground plan). It also shows a 'Kleiner Rischebach' (small stream) and a 'Spundwand' (sheet pile wall). The plan is dated 'WSP (15.02.2022) 65.21'.
