

Schnitt A - A'

A diagram of a 32-bit bus. The bus is represented by a horizontal line with a green grid pattern. The total width is labeled as 32 bits. The data path is labeled as 13 bits, and the control path is labeled as 4 bits. The bus is divided into two sections: a 13-bit data path and a 4-bit control path. The data path is labeled with 5<sup>2</sup> and 4, and the control path is labeled with 0<sup>8</sup> and 4. The bus is also labeled with 5<sup>2</sup> and 4 at the top and bottom.
